**What to Bring**

We recommend that all items be labeled with a permanent marker. We also recommend that all items be packed in soft, foldable bags, such as duffel bags or sports bags. Either hard or soft-sided regular luggage is difficult to store in the available space, allotted each student. The climate here in northern New Mexico is very dry most of the year, the altitude is above 8,000 and so the sun is intense. Non-aerosol Sunscreen, lotion, Chap Stick and water bottles are essential. All seasonal items can be shipped separately for appropriate season.
